

I depend on K-love for my day to day listening, as a source of global news and as a safe station for my children to listen to. To have Christian music available boils down to a fundamental constitutional right. This station serves our community as a choice and source of music and for those of us who are Christians, it is a source of inspiration through music. When choice of voice (music, news) is taken away, we are ignoring the principles this country was founded on. Do not take away this station.
